Shoreline degradation is an ongoing issue that challenges coastal habitat up and down the Texas coast. Shoreline degradation is the result of many issues, some manmade and others natural. Manmade issues include development, the creation of channels through sensitive marsh for commercial purposes, the Gulf Intracoastal Waterway (ICW) and others.

Natural issues include consistent prevailing winds impacting shorelines, hurricanes, winter storms and other effects of Mother Nature. CCA Texas’s Habitat Today for Fish Tomorrow (HTFT) program has taken part in several projects that were implemented to protect eroding shorelines, re-nourish shorelines and to prevent the breaching of one ecosystem into another. These projects include a joint effort with Ducks Unlimited Texas and others for shoreline protection along the ICW in the JD Murphree Wildlife Management Area and along the ICW just north of the San Bernard River, where important fresh water marsh lakes were being threatened by salt water intrusion from the ICW.

CCA Texas also worked with Ducks Unlimited and others in Cow Trap Lake (Brazoria County) where marsh shorelines were losing ground to the elements yearly.

Other efforts included those with TPWD in Bird Island Cove in West Galveston Bay and Snake Island Cove with the Galveston Bay Foundation (GBF), also in West Galveston Bay.

The latest effort to help protect and restore shoreline degradation was recently completed on the far western end of...
West Galveston Bay along the Oyster Lake shoreline. This shoreline separates West Galveston Bay from Oyster Lake, a sensitive estuary lake accessible from the ICW and connecting creeks from Bastrop Bay.

Over time, it is estimated that over 650 feet of shoreline has been lost on the West Galveston Bay side, and 150 feet on the Oyster Lake side since the 1940s due to prevailing wind, currents and hurricanes. Furthermore, the rate of erosion appeared to be accelerating, as since 1995 up to 175 feet of shoreline was lost on the West Bay side and 55 feet from the Oyster Lake side.

This project was a multi-phase undertaking that used different types of breakwaters designed specifically for shoreline protection and re-nourishment, and stretches across approximately 5,200 linear feet of critical habitat.

Phase I of the project placed 950 feet of shoreline breakwater along the West Galveston Bay and Oyster Lake shorelines. Another 500 linear feet of reef balls were placed along the West Galveston Bay shoreline in a 3-wide configuration, and an additional 450 linear feet along the Oyster Lake shoreline in September 2013.

The impacts of the breakwater were seen quickly and between September 2013 and June 2014 in the natural deposition of 1,100 cubic yards of material accumulating behind the breakwaters, thereby triggering the rebuilding process.

In June 2014, volunteers planted more than 2,000 smooth cord grass sprigs covering .75 acres in the area between the existing shoreline and the breakwater on the West Galveston Bay side. This cord grass was provided by project partner NRG and, since the original planting, the grass has been spreading and filling in the entire planted area.

Phase II construction began in October 2015. This phase of the project utilized limestone riprap to form the breakwater. This breakwater was built in segmented fashion to allow water to flow freely in and out behind the breakwater and deposit materials that will eventually rebuild the shorelines.

Phase II was completed in early January 2016 and 4,786 feet of breakwater that protects 5,150 feet of shoreline are now in place to protect Oyster Lake and the vital ecosystem services that it

27th Annual CCA State of Texas Anglers’ Rodeo

Don’t Miss the Boat! Register by FRIDAY, APRIL 29 to Get in the Early Bird Drawings!

Memorial Day weekend will be here before you know it! Mark your calendars, then SPOOL UP AND GET READY for the 27th Annual CCA Texas State of Texas Anglers’ Rodeo (STAR) sponsored by the Texas Ford Dealers, Tilson Home Corporation and Capital Farm Credit. The 2015 CCA Texas STAR drew over 48,000 participants to the Texas coast and a total of 118 anglers were the lucky recipients of some very impressive prizes and scholarships, making it one of the world’s largest saltwater fishing tournaments. This year’s event begins at sunrise on Saturday, May 28 and ends on Labor Day, September 5 at 5pm. Could this be your year to claim one of over $1,000,000 in prizes and scholarships? Don’t forget, by signing up now you could win one of the many fabulous prize offerings just for registering early! The CCA Texas STAR “Early Bird” Promotion will again offer another awesome “grand prize” boat package! The Dargel 210 Skout with a Mercury 150 Pro XS OptiMax motor and McClain trailer, a prize package valued at around $40,000!

For those anglers who forget or procrastinate thinking “it will never happen to them or their kids”, here’s a story from Elgin resident, Nick Elliott that should convince you to get your 2016 CCA Texas STAR fishing insurance before wetting a line. On the morning of June 13, 2015, Nick Elliott decided to run out and fish the Port O’Connor jetty wall. The last red Elliott caught to meet his limit was a healthy 23 inches that immediately went into the ice chest. Nick and his buddy fished a little longer, then decided they better count to make sure they weren’t over their limit. As soon as Nick picked up the last fish, he saw it! 2015 CCA Texas STAR TAG TA694! Then the weirdest feeling of extreme joy, on top of deep sorrow came over him as he knew he was not signed up for the tournament. The bait shop where Nick usually launches offered instant STAR registration, but since they didn’t have live shrimp that morning, Nick went to another one down the road that had live shrimp. That was probably the biggest mistake of the weekend and everyone at the cleaning table let Nick know it. Even the game warden felt bad for him. Nick plans to mount his tagged red fish as a reminder to sign up every year before going fishing.

Sadly, Nick did not get to pick up a loaded Ford F-150 “Texas Edition” XLT SuperCab, pulling a brand new 23’ Haynie Big Foot boat rigged with a Mercury 150L Pro XS OptiMax motor and Coastline trailer prize package at October 2015 CCA Texas STAR Award Ceremony. Our sincere condolences, Nick. Better luck in 2016!

Nick Elliott with the Tagged Redfish that would have been worth an $80,000 truck and boat package he not procrastinated registering for the 2015 CCA Texas STAR!

Trout Division - ATTENTION TROUT ANGLERS!
We are thrilled to announce an ALL new prize offering for this division! Winners in the upper, middle, and lower coast regions will each take home the awesome Mowdy 22’ V boat with a Suzuki DF150 motor and Coastline trailer. The 22’ V hull design is the perfect boat to handle shallow and rough water and remain completely dry. Mowdy fishermen know that the V-Hull is the most versatile hull on the market. With its 8” draft, the Mowdy gives you all of the best that a fishing boat has to offer. In true Mowdy heritage, the 22’ offers everything that you expect from the Mowdy name. FRIENDLY REMINDER… If you’re unsure a trout is large enough to qualify, consider this “easy rule-of-thumb” - if length is less than 27 inches, chances are it won’t meet the eight pound minimum weight requirement for the Trout Division. Unless you intend to mount your fish as a personal best, why not think about re-releasing anything that might not make the cut so she can re-seed the bays.

Offshore Division – ATTENTION BLUE WATER ANGLERS!
Hoffpauir Auto & Outdoor Store continues to partner with us to provide the offshore angler something that will come in very handy after a long trip on the high seas. Anglers who land the heaviest kingfish, dorado and ling will each receive an awesome Polaris Ranger® Crew 570 EPS UVs in Polaris Pursuit Camo each with a Big Tex 35sa Trailer!

Inshore Division – ATTENTION INSHORE ANGLERS! We have an exciting new, versatile Inshore Division Boat Prize for 2016! Winners who land the heaviest flounder, sheepshead and gafftop will each take home the awesome Shoalwater 19’ Cat boat with a Mercury 115 ELPT 4S motor and McClain trailer. The 19’ Shoalwater Cat floats and runs shallower due to less deadrise in the bow and less weight resulting in an excellent ride in extremely shallow waters, plus runs well in moderate chop, due to the tunnel hull design. The 6” draft will allow you to get shallower than most flats boats that are much smaller.

In the past twenty-one years, STAR has awarded $5,525,000 in college scholarships to 174 fisher-kids across the state, ranging from 6-17 years of age and 2016 continues to offer plenty of reason for everyone to round up their kid(s), a rod and reel and head for the water. And, now we’re thrilled to announce even more reason to get your kids and teenagers out on the water! We’re increasing the seven $20,000 scholarships to $25,000!!!

STARKid Flounder Division – This division gives entrants age 6-10 a chance to win a $50,000 college scholarship for the largest flounder caught throughout the summer.

STARKid Gafftop Division – This division gives entrants age 6-10 a chance to win a $50,000 college scholarship for the largest gafftop caught throughout the summer.

Houston Community Newspapers StarKid Sheepshead Division – This division gives entrants age 6-10 a chance to win a $50,000 college scholarship for the largest sheepshead caught throughout the summer.

Academy Sports & Outdoors StarTeens Trout Division - This youth scholarship division is open to all New Tide members ages 11-17 and awards a $25,000 college scholarship for each fisher-teen with the largest trout in the upper, middle and lower coasts. FRIENDLY REMINDER… The minimum weight requirement for the trout is six pounds. For all fish weighing less than six pounds, if no intentions of mounting young angler’s prize catch, please take a quick picture and immediately re-release back into the water.

StarTeens Inshore Division - This youth scholarship division is open to all New Tide members ages 11-17 and awards a $25,000 college scholarship for each fisher-teen with the largest flounder, gafftop and sheepshead statewide.

But Wait, There’s More…

Runner-Up Prizes - The first through fourth runners-up in all divisions will receive various gift certificates from Academy Sports & Outdoors.

“We New Tide” Member Drawing - The “New Tide” Scholarship Drawing will be offered again in 2016. “New Tide” STAR participants at least, 6 - 17 years old in 2016, are eligible for a bonus drawing that will net one lucky youth a $25,000 college scholarship even if the participant never wets a line or enters a single fish during the entire tournament.

Member Bonus Drawing - This unique drawing offers STAR entrants a chance to win a fabulous boat prize package even if the participant never wets a line. One lucky contestent’s name will be drawn to win a Dargel 210 Skout with a Mercury 150 motor and McClain trailer.

STAR TOURNAMENT DIRECTOR’S NOTES
We would like to salute our STAR title partners for supporting CCA’s mission of conservation, habitat improvement and over $5 million in scholarships collectively for over 38 years. Heck, you may even discover many serve on the volunteer boards at your chapter.

Here are some thoughts:
If you want to see all the various options and colors available on Ford trucks, just attend a CCA banquet. Talk about a parking lot of fine trucks! The Texas Ford Dealers have invested in CCA for over 20 years. Who else would actually produce a TV commercial and pay for massive air time to highlight CCA’s resource enhancement activities? Not to mention the “lure” of catching tagged redfish in STAR and winning one of the five trucks. These outdoorsmen back it up. Even if a kid not of legal driving age catches a tagged red, these friends will provide a scholarship instead.

Having partnered with CCA for over a dozen years, most members know Tilson specializes in building exactly what you want, wherever you want it. You can imagine the kinship with your builder – Tilson’s president donates his time as president of the Houston Big Game Fishing Club. When you get your dirt, consider the multiple options that Tilson Homes can provide. Outstanding partners!

Nobody likes the down oil economy in Texas but if ever there was a time to find your piece-of-heaven in the country or on the bay, this is it. Capital Farm Credit can make your dream happen. CCA members report solid professionals really ease the process and make the numbers work for you. Indeed, as just hunters and fishermen like we all are, our friends at Capital Farm Credit even pay annual cash dividends in appreciation for the business! Thank you, gentlemen. Appreciate your support of our mission here too.

Thanks to you, our member, for appreciating the serious intent of STAR partners. Every single one earns your consideration and hopefully your patronage. And we can all be grateful our mutual efforts have producted the hottest inshore fishery for years to come. Now let’s get out there and get after them. Good luck and God Bless in STAR 2016!

Ellen Ohmstede Retires From CCA

Ellen Ohmstede is retiring from CCA after 20 years. Ellen started with CCA as a Banquet Assistant in 1996. After several years, she was promoted to an Assistant Director position working with our local chapters with their fundraising efforts. Under her leadership, her chapters have continued to grow and have played an important part in the success of the organization.

Ellen has been a tremendous asset to CCA, and a personality we will not be able to replace. We wish her the best in her future endeavors, and will always be grateful for what she has contributed to CCA during her 20 years. From all of the CCA volunteers and staff; Ellen we thank you!

Executive Director Robby Byers presents service award for 20 years to Ellen Ohmstede.
The final steps in the project are to accomplish baseline data collection for annual monitoring and developing a grass planting strategy for the entire project.

**Partnerships** are crucial in completing projects such as these and CCA Texas is proud to have been a part of the project through the direct contribution of $200,000. This was important as it established groundwork for GBF to secure another $270,000 in matching dollars. These funds along with other funds from project partners bring together many groups in the common cause to help protect and restore vital coastal habitat along the Texas coast.

Focus on Matching The Hatch
Spring is here, water temperatures are rising and game fish are on the move! Throughout April, anglers should focus on following the schools of trout and redfish from their muddy bottom winter grounds, to hard-bottom flats. I like to focus on the first flats off the main channels and at the mouth of ditches. The key to finding the right flat is finding the water that stays decent in color and has a rising water temp every day.

Moving into April, I really focus on "matching the hatch" when it comes to lure selection. I often find the smaller plastics and topwaters get more bites than the larger swim bait style lures. Reason: smaller baitfish are more prevalent, so on they’re first on the menu for all gamefish.

April and May, my main go-to lure is a Berkley Havoc on a jig head. I also throw Sebile flat belly walkers in shad color during the early spring to trigger a reaction bite.

Spring brings out the warm-weather boaters all over the lakes and bays every year. There are lots more of us out there now, so boat courtesy and being careful of your surroundings is very important.

Galveston bay has been and will stay on fire throughout the spring leading to summer, while the bay has been living up to her reputation highly anticipated.

Baffin Bay is a shining jewel of trout green abundance. This new beginning for Baffin Bay, after a long drought and a brown tide event, has been highly anticipated.

The bay has been living up to her reputation for producing some really big trout and that will continue through April and May. With all kinds of bait in abundance, whether fishing on the rocks, shorelines or sight casting with a fly rod, some really fun days of fishing are here.

Big trout are eating big mullet, trying to fatten up for the spawn which usually occurs sometime in May, when water temperature reach 75 to 80 degrees and stays there. Mullet, lots of blue crabs, shrimp, glass minnows and pin perch – it’s a smorgasbord for all fish the next two months!

Top water action will be hot, with Saltwater Assassins in light colors on our signature, “Black’s Magic” a superb light 1/32 ounce jig head with a 1/0 hook, coming to a tackle store near you! Natural colors are the key, including white, and all spectrums of it, whether straight tail or paddle tail. Top waters will include the “One-Knocker Spook,” the “Skitterwalk” and the “Super Spook Jr.” The well-known “Rocks of Baffin,” which in essence act like a coral reef, are holding bait and all kinds of fish, including good, solid keeper trout, big reds and lots of black drum. Whether drifting the deeper rocks or wading the shallow ones, the rocks of Baffin are a great place to start for a fresh fish dinner, and maybe that trophy of a lifetime.

Fly fishermen will stalk the super shallow edges for cruising or tailing redfish, black drum or a laid-up big trout lurking in the grass or sand pockets. These shallow water fish just can’t say no to a #4 Clouser in white or small white crabs tossed to the right place.

April and May are the start of a great season of fishing on Baffin Bay. The “new” Baffin Bay Rod and Gun has opened its doors after a devastating fire and a two year journey to rebuild, bigger and better! Now, the lodge can sleep 20 people in great comfort and in a beautiful setting. Chef JJ is serving up five-star meals and the rest of the staff, including some great new guides, are helpful and happy. It’s been a long road, but the dream of the Capt.’s Black has now become a reality.

Don’t miss two of the best months to fish on Baffin Bay. We hope to see you in the “new” Baffin Bay Rod and Gun Lodge — a great place to stay for your adventure of a lifetime!

Cool, windy, choppy, great!
April and May are times of wonder and amazement. You wonder if the weather is going to cooperate, and there are times of amazement at how good your catch was that day.

This is my second favorite time of the year (right behind the Fall) for similar reasons. Like Fall, Texas weather can be erratic followed by days of perfection. Wading with soft plastics in your favorite colors works very well. For me that’s an assortment of Texas Trout Killers and Killer Flats Minnows in root beer, morning glory, chicken on a chain, and roach, all with either a chartreuse or fire tail. I love Corky Devil’s as well in similar colors.

Topwater’s like the Super Spook Junior in most any shiny color are fantastic this time of year too. My buddy Tim always says, “I’ll be using something that rattles and floats!” Mix it up to see what’s working, at day break with a darker color. Move to lighter colors to shiny as the sun get’s up. Take your time on the wade; don’t move too fast. Slow the retrieve at times; the tortoise may win this race at the end of the day.

It’s going to be WINDY, it’s most likely going to be COOL, and it’s definitely going to be CHOPPY on the water. Dress for the conditions and you can STAY AT THE FISHING longer and enjoy it more.

Baffin Bay is a shining jewel of trout green abundance. This new beginning for Baffin Bay, after a long drought and a brown tide event, has been highly anticipated.

The bay has been living up to her reputation for producing some really big trout and that will continue through April and May. With all kinds of bait in abundance, whether fishing on the rocks, shorelines or sight casting with a fly rod, some really fun days of fishing are here.

Big trout are eating big mullet, trying to fatten up for the spawn which usually occurs sometime in May, when water temperature reach 75 to 80 degrees and stays there. Mullet, lots of blue crabs, shrimp, glass minnows and pin perch – it’s a smorgasbord for all fish the next two months!

Top water action will be hot, with Saltwater Assassins in light colors on our signature, “Black’s Magic” a superb light 1/32 ounce jig head with a 1/0 hook, coming to a tackle store near you! Natural colors are the key, including white, and all spectrums of it, whether straight tail or paddle tail. Top waters will include the “One-Knocker Spook,” the “Skitterwalk” and the “Super Spook Jr.” The well-known “Rocks of Baffin,” which in essence act like a coral reef, are holding bait and all kinds of fish, including good, solid keeper trout, big reds and lots of black drum. Whether drifting the deeper rocks or wading the shallow ones, the rocks of Baffin are a great place to start for a fresh fish dinner, and maybe that trophy of a lifetime.

Fly fishermen will stalk the super shallow edges for cruising or tailing redfish, black drum or a laid-up big trout lurking in the grass or sand pockets. These shallow water fish just can’t say no to a #4 Clouser in white or small white crabs tossed to the right place.

April and May are the start of a great season of fishing on Baffin Bay. The “new” Baffin Bay Rod and Gun has opened its doors after a devastating fire and a two year journey to rebuild, bigger and better! Now, the lodge can sleep 20 people in great comfort and in a beautiful setting. Chef JJ is serving up five-star meals and the rest of the staff, including some great new guides, are helpful and happy. It’s been a long road, but the dream of the Capt.’s Black has now become a reality.

Don’t miss two of the best months to fish on Baffin Bay. We hope to see you in the “new” Baffin Bay Rod and Gun Lodge — a great place to stay for your adventure of a lifetime!

And now it begins...
With life-giving rains, all areas of the Lower Texas coast—from Corpus Christi to Port Mansfield—are now back in good shape, and will only improve in the coming months.

Aransas Bay Chapter volunteers, 2016 Billy Sandifer Big Shell Beach Cleanup

Aransas Bay
Carter Crigler 435-830-5984 jccrigler@hotmail.com
Registration for Babes on the Bay XVII will have been underway for two months by the time you are reading this. Do not delay, make your team registration today by going to www.BabesOnTheBay.com and click on the registration tab. Online registration will be used exclusively for the event.

Karol and her team have found some really awesome items for the swag bag this year, so get registered to insure you get the correct tee size. One person registers the entire team, so make sure you have everyone’s correct information before you enter the registration process.

The last day for regular registration is 4/15/2016. All registrations received after this date and prior to the 4/30/2016 cutoff date will pay a late registration fee of $120. If you have any questions, email Karol at CCABabes@gmail.com or call her at 361-386-0028.

What a difference a year makes in weather conditions for the Billy Sandifer Big Shell Beach Cleanup! Beach/tide conditions for the 2015 cleanup resulted in a hasty retreat due to a rising tide washing out the last signs of a track to follow on the drive out to a most beautiful, warm, sunny day with low wind and tides for the 2016 cleanup. Better conditions could not have been planned.

Again the Aransas Bay Chapter had a good turn-out of veteran supporters, to our active winter Texans and a number of first time volunteers. A good time for all.

Chapter support of the Abandoned Crab Trap Project reminded all of us of the importance of the project. One gets a great sense of accomplishment when they release crabs from an abandoned crab trap and follow-up with the removal of the death sentence it has been to so many crabs. Continued support of this project is vital to a viable and healthy ecosystem.

The 2016 Austin Banquet, presented by Covert Chevrolet and Independence Title, is just around the corner. Mark your calendar, purchase your ticket, and plan to rally for your organization on May 12th.

It was through your support that the Austin-Chapter set yet another fundraising record in 2015. Let’s shoot for a four-peat! There will be top-notch food, drinks for all, and Charlie Robison on stage. Up for grabs will be exotic trips, tons of guns and fishing gear, Yetis, boats, trucks, and over $100,000 worth of raffle items. With all that on the agenda the evening will prove to be exciting. Go to www.ccaustin.org for table and ticket sales as well as any additional info. Seating for this banquet is sure to sell out, so don’t delay in purchasing your spot!

A special thanks goes out to all of our generous sponsors. It’s through their commitment to CCA that the Austin Banquet shines like no other. Space constraints don’t allow us to acknowledge all of our sponsors in this newsletter. Please take a minute and check out the complete list of sponsors on www.ccaustin.org. These folks support the mission of CCA and, as members of CCA, we should all support their businesses as often as possible.

Shallow Sport has done us proud once again. Our banquet boat – a 21’ Modified “V” carries about 400 people and its an awesome way to explore any water of your choosing. The 24th annual Brazos Valley Banquet is in the record books. We opened the doors at 5:30 March 3rd and had a 400+ crowd join us. Our team of volunteers put it together like a “well oiled machine” and would like to thank them for all the hard work. We had several new faces on the committee that fell in to help just like our veterans and we hope they will continue the support.

The crowd was entertained by walls lined with tables of silent auction items, ticket raffle, bucket auctions, and games. Our sponsors supplied a lot of unique items to bid on and CCA had a great line up of trip, art, and usual. Everyone was served a delicious meal from Hillard Distributing and Luke’s Bartending, Auctioneer Ed Phillips and his spotters entertained the crowd and our ticket sales girls did a great job. Because of this team we grossed the most in our 24 years.

We now need to thank the great people and sponsors of the Brazos Valley from who supply the monies the make this a success. Without them we would not have accomplished the goal we set this year “A BIG Thank You”. Everyone that participates at the banquet is making a insurance that future generations will have a coast like we have.

Now that this done our focus is going fishing. Old man winter gave us extra days this year and hope everyone got to take advantage of some. The spring is here and we are going to put a club trip together for May.

We need our Brazos Valley membership to come to our meetings and give us some input to where we should go. Our meetings are held at the Brazos Center Pavilion on the second Tuesday each month. We have food, beverages, raffle, and lots of fish stories so come join us. If you need more information call, text, or email us.

Dallas / North Texas
Hal Thoms 972-612-1684
Dallas is at it again. Chapter meetings are planned for February and March and the banquet is coming in April. We recently enjoyed listening to Forrest Valentine talk to us about top water fishing during the January Chapter Meeting held at Tallwaters Fly Fishing Company on Levee Street in Dallas.

Forrest explained why guys like me never catch the “big” fish. To summarize, he says I just don’t know how to think like a fish. Go figure, he knows me and the fish since I really do not understand what I am doing and that’s why I need to attend more meetings with speakers like Forrest.

Forrest talked about selecting the type of lure, colors and sounds, rod choices and especially interesting, how to action the lure while retrieving a cast. He also shared insight regarding braided lines, line weight and many other techniques to make day or night fishing most enjoyable.

Forrest...THANK YOU! And, the good news is, I found it most encouraging to have many in the group tell me that I might have potential. We will see if it is true during the next Inter-Chapter Challenge.

The Dallas Chapter is in full swing getting ready for the Thursday, April 21 banquet. We have two local chapter meetings coming up as well. The banquet committee is selling tables, soliciting sponsors, inviting guests and securing great prizes in hopes of making this year’s banquet even better than before. G-Texas will cater the event at Frontiers of Flight Museum. We hope to see everyone there and hope you bring many friends. Tight Lines — Hal

Fort Worth
Hunter Baird 817-437-8351
Greetings from your Fort Worth Board of Directors. Here in North Texas, it has been a fairly quiet couple of months. The only excitement came when there was a big fight at the seafood restaurant. Three fish got battered.

Our bi-annual General Membership Meeting and Fish fry is on March 10th at Panther Island Brewery. Please note the venue change—we are very excited about the new local brewery that has signed on to help us in our efforts to provide quality events for you all. As usual come hungry and come thirsty.

As a thank you for your continued support, your board will be providing fish from their recent fishing trips and all beverages from Panther Island Brewery. There will also be a raffle for some great prizes. The secondary focus of this event is to turn everyone’s attention to our main banquet fundraiser at Joe T Garcia’s. The drinks will start flowing on Cinco de Mayo (May 5th, 2016) at Joe T’s in the historic stockyards.

Feel free to reach out to John Black (jonathan.black@ml.com), Hunter Baird (bairdhunter@gmail.com) or Brad Wallace (brad@northtexasmarine.com) regarding the annual meeting. Keep an eye out for mailers and emails reminding you of both upcoming events. Table sales and sponsorship packages are available now.

With over 300 guests in attendance this is a great way to get your company in front of business owners and outdoor enthusiasts from all walks of life. We all serve a great cause and couldn’t thank you enough for your support especially in light of the challenging times we have seen over the last decade! We look forward to seeing you at the GM and Annual banquet soon. In the meantime don’t hesitate to reach out to us if there is anything we can do. — Hunter Baird

The Matagorda Bays Chapter is in full swing for the year. We have finalized a raffle boat and have begun selling tickets. This year’s boat will be a fully rigged 23’ Dagrel Attackafleet powered by a 175HP Suzuki, with all black powder coated aluminum, and tee top. The boat sits on a double axle McClain Trailer. Cleve Ford and the guys at Dargel did a great job rigging the boat.

Polasek Construction has once again stepped up to be a boat sponsor. Polasek Construction has supported Matagorda Bays Chapter year after year and our hats are off to them once again. Be looking for the boat around the area and a chance to buy a ticket. If you are not in the area to get a boat ticket give Wesley Smolik a call at (979) 543-2735. Be sure to mark your calendars for our 2016 banquet it is scheduled for June 30 at the El Campo Civic Center.

The chapter’s 11th annual Lil’ Salties Fishing Blowout is scheduled for May 7th 2016 at the Matagorda Harbor. Chapter members should be receiving entry forms in the mail. Parents be sure to get them filled out and mailed back ASAP so we can plan another great tournament. Last year we had a record year of 256 kids come out for a day of fun. Every entry receives a prize bag, trophy, and tee shirt. If you are interested in donating to this great event or have any questions fill free to contact Lynn Staff (listaff@yahoo.com) or Thomas Gold (tagold@elc.net). Feel free to contact me if you have any questions about the chapter. —Chad Hensley

The last few weeks have been busy in the Chapter, first we had the 25th annual Orange County Trash-Off. The 2016 Crab Trap Removal is now history and it doesn’t seem like this was the 15th year. The POC Chapter was on hand at the Texas Parks and Wildlife Docks to assist on Saturday, February 20th. The weather was great and it was a good day just to be on the water.

Chris Smisek of the San Antonio chapter and his crew brought in the most traps, 65. Chris must have had The Chester on point to find that many traps. The crew assisting Chris were Robert Powers,

Dr. Alan Baribeau, Matt Green, and Lannie Green.

The chapter provided lunch for all who showed up. Thanks to all who participated and a special thanks to Jim Busby for doing all the leg work in setting it up. Also, to Norman Boyd of TP&W for the use of their facilities and for his assistance.

We will be scheduling meetings in the near future in preparation for the 17th Annual POC CCA Banquet, so be sure to pencil in that date on your calendar, Saturday, October 15. So, as the weather warms and the north wind calms, come see us, or if you want to become involved with the chapter and/or banquet-contact us in POC, “Where it all began.”

Our 9th annual banquet has come and gone, a huge success. Our largest fundraising effort for our chapter to date. We closed off a great night with the drawing of our grand prize raffle item, the Polaris 570 Crew, and the winner was Tina Kutch of Katy.

I thank Coleman Todd, with CCA and his crew for bringing everything together to make the event run smooth. Some of our sponsors and contributors that stand out are Silver Eagle Distributors, Rice Medical Associates, Academy Sports and Outdoors, Waller County Deed, Keystone Concrete Placement, and Capital Farm Credit. I can’t forget Hoffpaur Polaris for the great deal on the Ranger Crew, Fairway Golf Carts for the great deal on the golf cart and Mike Grigar of Johnny’s Sport Shop for supplying all of the guns and such for the event.

Slade Stary and crew provided a wonderful ribeye steak dinner that really hit the spot. An event of this size would not be possible without the strong people that got the ball rolling. Without the many volunteer hours of our board members our chapter would not be where it is today. I give special thanks to a few board members that went above and beyond this year: Kenneth Schatz, chapter treasurer, for keeping up with all of our finances. Jared Montagino, who kept track of all raffle ticket sales and pre-sale meal tickets, and Richie Domel, who knocked raffle sales out of the park this year.

I remind everyone that we are always looking for new board members young and old to help our chapter grow. We will continue to meet somewhere in the East Bernard area every third Tuesday evening of each month.

Our next major event is our Board Cup Fishing Tournament to be held in Matagorda on July 29 and 30. Thanks again to our board members who donated their boats and time to make this event the great time it is every year. Nino Araguz, Bill Kloppsteck, Ross Kutch, Brian Domel, Jared Montagino, Doug Macha, and William Wilcox. Thanks again, guys.

In conclusion, I hope everyone had a great time at our banquet and hope our chapter continues to grow and new people become more interested in being a part of it all. Spring is upon us, the fish will start biting, so boaters, please wear your kill switch. Until next time, Fish On! —Jayson Zahradnik

It was a beautiful day on the Padre Island National Sea (830) 765-6228 shore for many CCA volunteers, and a rewarding day for the Aransas Bay Chapter volunteers, shown here. The Aransas Bay chapter also teamed up to collect many crab traps.

Port O'Connor: Chris Smisek of the San Antonio chapter and his crew brought in the most traps, 65. Chris must have had The Chester on point to find that many traps. The crew assisting Chris were Robert Powers, Dr. Alan Baribeau, Matt Green and Lannie Green. —Pres. Bill Moore

Left: On Sabine Lake, among CCA and Orange County chapter members were Darin Johnson, Scott Bandy, Addison Bandy and Davis Dixon. They collected 21 abandoned traps from the north end of the lake and 35 abandoned traps from the south revetment wall. —Darren Johnson
Two longtime CCA committee chairmen step down from their positions after a decade of service

Doug Boyd has been the Chairman of the Chapter Committee for 15 years. He has done a tremendous job and we certainly appreciate all of the volunteer hours that he has given to the organization. Doug will be replaced by Scott Sanderson as the new Chairman.

DeGraaf Adams stepped down as the Chairman of the Governmental Relations Committee. DeGraaf served as the Chairmen for 10 years and has put an incredible amount of time into leading that committee over the years. His committee has had to deal with a lot of contentious issues during his tenure and we certainly appreciate his leadership. DeGraaf will be replaced by Troy Williamson.

CcA PlaTes for Projects

You’ve seen our CCA Texas License plates driving the roads of Texas. We would like to ask all of our 70,000 Texas driving members to consider ordering their own plate today. For just $30 you can have this fantastic-looking plate, and CCA will receive $22 to be used for our Habitat projects.

It will take you just a few minutes to order for your truck, car, or boat trailer. To place your order, input in your network browser (Google works best), TxDOT Special Plate Order Application. Follow the next thread to Coastal Conservation Association. These plates would also make great gifts for any fishing enthusiast. So drive in style and help support our Habitat projects at the same time. If just half of our members drive with our CCA plates, it will generate almost $800,000 each year to fund future Habitat projects. Now that is driving for a cause.

Please support us and order your plate today!
